

As a over the road trucker, I just have to tell you how much i enjoy my XM radio with the weather updates. I travel to many different citys every week and it is very helpfull to be able to find out how traffic is moving in that city. As you know the weather changes every day anywhere in the country and how nice it is to be able to turn to a place where you know you are getting the best update you can for the area you are in. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I have come to enjoy.
